Perfect for today's modern hotel rooms

## Bacteria-Resistant Hotel Phones

### Protect your guests from unwanted germs

Vacationers and business travelers check in and out of your hotel on a daily basis—and so do their germs. But there's an easy way to keep your guests and housekeeping staff healthy. Outfit your hotel with VTech phones manufactured with anti-bacterial plastic. You'll help reduce the spread of the common cold, and other bacteria-causing illnesses.

### Constant contact

Studies show that 80 percent of all infections are spread through contact. That makes hotel environments prime targets for bacteria and infection—especially areas that are touched by multiple people. Guests and staff are in constant contact with innumerable surfaces: doorknobs, remote controls, pens, light switches, clock radios, telephones and so much more.

No matter how efficient your housekeeping staff is, it's difficult to eradicate all the germs that yesterday's guests left behind. With VTech phones, everyone has an added layer of protection—and peace of mind.

### Antibacterial plastic

What does antibacterial plastic really mean? In our case, it means that we've added Zeomic®, an inorganic antibacterial agent, to the plastic used in our hotel phones. Zeomic uses silver and other ions to prevent the growth and migration of bacteria, mold and fungus. Through nanotechnology, the ions are infused into the plastic, creating a stable agent that maintains its effectiveness for the life of our phones.

# Hospitality Hotel Phones Features

Materials

New high-quality materials

# Guest Room Phones

VTech Hospitality offers a wide range of guest room phones - perfect for today's modern hotel rooms. When you choose VTech, you're also choosing world-class service and support, green standards and antibacterial phones backed by 45 years of telecom experience. Select from classic or contemporary analog and SIP models, the latest features and customizable face plates.

Styles complement a variety of interiors and properties - from the luxury resort to the short-stay motel.

Smaller footprints and extra USB ports mean more space on the nightstand, and more charging options for guests' devices.

Best-in-class warranties (five years for analog guest room phones, three years for SIP administrative phones, two years for SIP guest room phones and conference phones, one year for headsets) ensure customer satisfaction.

Guests feel right at home with intuitive, modern features, including cordless handsets, speakerphones and more

Providing the best in Wideband HD audio, ensuring crystal clear sound quality \*

These phones come with the very best in security options. Calls are digitised and encrypted, making eavesdropping nearly impossible.

\* This feature is not available on all analogue phone models

# Contemporary Corded Phones

VTech offers a comprehensive line of hotel phones that cater specifically to hospitality, providing hotel guests with a seamless experience.

Elegant styling lends a modern, fresh touch to guest rooms, while antibacterial plastic protects guests, while providing innovative contemporary and classic styles that complement today's interiors.

Our SIP options enable you to keep up with market needs for compatibility with open-source PBX platforms.
