## Controls and Connections

MD-Series Front Panel (8 Channel)

MD-Series Back Panel (8 Channel)

MD-Series Front Panel (16 Channel)

MD-Series Back Panel (16 Channel)

WARNING: The Camera network Port is equipped with a DHCP server and intended for use only with a dedicated independent camera network on its own network switch. Connecting to the Camera Port to a network with another DHCP server will cause significant network issues.

Features

OpenEye's MD-Series recorders include the following features:

- Complete remote operation and administration with Web Connect
