Paradox

- Smart Phone or Smart Device (iOS or Android) connectivity to your premises

- Market leading 2-way remote controls with full system feedback in your hand

- Hardwired, wireless and hybrid systems to meet all installation requirements

- The smartest user interfaces on the market with the classiest touch screen control centre

- Configured by Paradox to meet the strict demands of the New Zealand Security Industry

- The largest range of wireless detection devices and accessories on the market

- Back to Base monitoring using 3G network, Internet or Telephone Dialler (may require additional modules)

- National Broadband Network ready

- Systems available from 1 to 192 Alarm Zones. From 1 to 999 users.

Back To Base Monitoring

The best way to secure your business and your assets is to have your system report back to a security monitoring centre. Statistics show that 26% of all burglaries happen while we are still inside the building. In these situations we must rely on our security system to report offsite to a monitoring centre to ensure the safety of our businesses.

Intrusion Alarms, Panic Alarms, Medical Alarms and system conditions can all be reported back to base via the Internet, GSM network, GPRS network or via the traditional telephone line. As the fibre optic network installation picks up speed across New Zealand, Paradox has many ways to communicate with monitoring centres. Ask your installer for the options in your area.

About Paradox

Paradox have been manufacturing and supplying leading-edge security systems to the world for over 25 years. It's the feedback from all our customers that has helped us design the worlds most flexible yet user-friendly range of security systems available today.

In New Zealand, we have developed Paradox NZ defaults for our security systems so that we can meet the demands of the local market and ensure that our systems meet the New Zealand regulatory requirements and all the needs of the customer.

# P A R A D O X®

Sophisticated...yet simple.

Protecting you and your property for over 25 years.

Complete control at your fingertips
by securely connecting to

Insite Gold Mobile Application
for Internet Connected Devices

The Insite Gold mobile application enables you to remotely access your Paradox security system via your mobile device*.

▶ Smartphone or internet connected device (iOS or Android)
▶ Arm and disarm the system
▶ Activate outputs to operate devices such as the garage door or home automation devices
▶ Generate panic or duress alarms
▶ Be advised when kids get home from school
▶ Review alarm conditions
▶ Push notifications

*Internet connection required.

User Interfaces (Keypad)

TM70 Touch Screen

Integrates security and home control capabilities to help you manage and control the complexities of modern living.

▶ Icon-based menus with bright colour display
▶ System arming, output control. Duress and system conditions easily accessible
▶ Upload floor plans onto the inbuilt SD card and locate the alarm zone icons onto the map

K641 or K32 LCD Keypad

Zone alarm display with simplified end-user remote control programming.

▶ 32-character blue LCD with programmable labels
▶ 3 keypad-activated panic alarms

Access Control

ACM12 Access Module
(EVO Only)

Single door access control module.

▶ Transformer sharing
▶ Grant access via card and/or access code
▶ Connections for one door
▶ Automatic unlocking schedule
▶ Safe mode option
▶ In-field firmware upgrade

R910 Reader

PosiProx 4 wire indoor/outdoor Prox reader

▶ Weather resistant
▶ Tricolour LED display
▶ Advanced SwiftRead Technology
▶ Up to 10cm read range
▶ Supports the RS-485 output format
▶ Elegant blue face light

Remote Controls

REM15 4 Button

▶ Stylish interface to your security system
▶ Multi-function 4 button remote designed to go on your keyring
▶ Incorporates arm, disarm, panic and output control such as garage doors or home automation

REM25 - 5 Button 2 Way

▶ Receives two-way notifications
▶ Performs 6 different actions such as:
  - arming/disarming system
  - enabling/disabling PGM's
  - providing system status
▶ Compact, design with backlight buttons
▶ Available in black or white

DCT2
Window or Door Reed Switch either Hardwired or Wireless

SR130
External Wireless Siren

SD360
Wireless Smoke Detector

NV35M or NVR35M
Indoor / Outdoor Window & Sliding Door Dual Detector

DG85 or PMD85
Hardwired or Wireless Outdoor Movement Detector

NV780 or NVR780
Outdoor Hardwired or Wireless Perimeter Protection

2WPGM
Wireless Relay & Zone Input for Garage Door Control and Home Automation

NV5
Hardwired Indoor Movement Detector

GS250
Wireless Vibration / Tilt / Movement Sensor

DG457 or G550
Hardwired or Wireless Glass Break Detector

PMD2P
Wireless Indoor Movement Detector

DG75 or PMD75
Hardwired or Wireless Pet Immune Movement Detector
