

Service Note

SC 45/75 USB MS, SC 30/60 USB ML, SC 230/260 USB MS II, SC 630/660 USB MS / SC 660 ANC / SC 635/665 USB
Firmware Release for Microsoft Teams (v15.05.89.0089)

These release notes provide important information on the content of the new firmware release for the **IMPACT 100 Series** (SC 30/60 USB ML, SC 45/75 USB MS), **IMPACT 200 Series** (SC 230/260 USB MS II) and **IMPACT 600 Series** (SC 630/660 USB MS / SC 660 ANC / SC 635/665 USB). The new firmware will be available for download on EPOS Connect on April 16th, 2020.

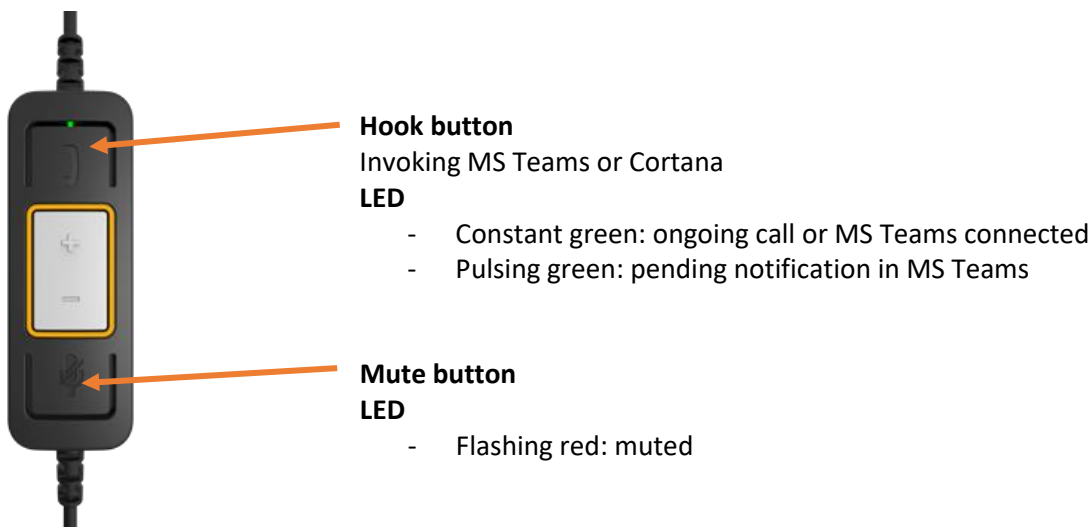

The new firmware update certifies the headsets with the Microsoft (MS) Teams unified communication and collaboration application.

NEW FEATURES

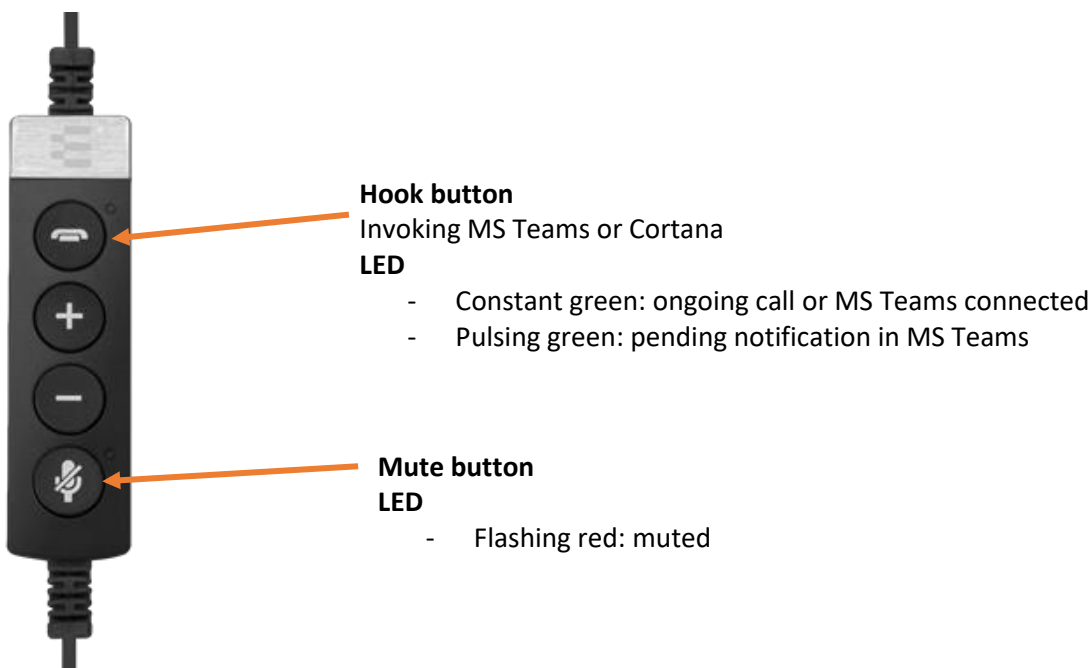

EPOS wired headsets from the IMPACT line are now MS Teams certified which means:

- MS Teams can show notifications to the user by pulsing the MS Teams light
- If you press the Teams button you will “invoke” (open) MS Teams. Like this you can bring the MS Teams application into the foreground and you will be taken to the relevant notification, such as
 1. Missed call
 2. Voice mail
 3. Missed meeting

Controller for SC 45/75 USB MS and SC 30/60 USB ML

Controller for SC 230/260 USB MS II, SC 630/660 USB MS, SC 660 ANC and SC 635/665 USB

KNOWN ISSUES & LIMITATIONS
