*AES-128 bit media encryption (Peer to Peer)

QR VIDEO INTERCOM
POWERED BY TELEPORTIVITY

How it works for you?

Answer/Manage calls on your smartphone (iPhone/Android)* or PC

You receive a push along with a 15 second ringing sound

App opens, and shows you which entry point was scanned.

Clicking on the selection will answer the video/voice/text call

Whilst on the call, unlock a door/lift floor

Or even use the app to simply unlock doors/floors

*iOS 12 or later, Android 7 or later (some older/less popular phones may not be compatible).
*AES-128 bit media encryption (Peer to Peer)
*2FA PC Admin access for enhanced security
