

Release Notes – Milestone XProtect Transact 2.5

It is with great pleasure that Milestone Systems as of November 22nd 2007 has released

Milestone XProtect Transact 2.5

XProtect Transact is a Transaction Management system for searching and viewing transaction data from virtually any source that is time-linked with digital video recordings. XProtect Transact takes advantage of the advanced functionality of XProtect Basis+, Professional, Enterprise or Corporate

XProtect Transact combined with XProtect video surveillance software enables you to effectively combat fraud and loss occurring in transactions. You can track and video proof any abnormal or suspicious transactions instantly.

What's new compared with XProtect Transact version 2.2

- New SQL database enables support for Microsoft Vista™ (Microsoft® SQL Server 2005 Express Edition)
- Transact can be installed on both Masters and Slaves in XProtect Enterprise
- Transactions can be set to generate generic events in XProtect Enterprise, Professional and Basis+. It makes browsing through events easier
- An improved and more stringent license check for each source
- XProtect Corporate is supported
- A search list in the Smart Client makes browsing of search results easier
- Via a new XML provider, Transact can receive XML data directly from a wider range of systems
- Transact is able to connect across NAT-enabled IP network, enabling internet access and port forwarding

System Requirements

XProtect Transact Server

- CPU: Intel® Pentium® 4 or compatible, minimum 2.4 GHz
- RAM: Minimum 512 Mbyte
- Network: Ethernet (100 Mbit recommended)
- OS: Microsoft® Windows® XP Professional, Microsoft Windows Server 2003 or Microsoft Windows Vista™
- Software: Microsoft .NET 3.0 Framework required. Milestone XProtect™ Corporate 1.5 or newer or Milestone XProtect Enterprise 6.0 or newer or Milestone Professional 6.0 or newer or Milestone XProtect Basis+ 6.0 or newer required. Milestone Smart Client 3.0 or newer required.

XProtect Transact Client (Smart Client plug-in or Viewer)

- CPU: Intel Pentium 4 or compatible, minimum 2.4 GHz
- RAM: Minimum 512 Mbyte
- Network: Ethernet (100 Mbit recommended)

- Graphics Card: AGP or PCI-Express, minimum 1024 x 768
- OS: Microsoft Windows XP Professional, Microsoft Windows Server 2003 or Microsoft Windows Vista.
- Software: Microsoft .NET 3.0 Framework required

Supported Languages

Transact Client (Smart Client plug-in or Viewer)

- English

Transact Server/Administrator

- English

Licensing

The licensing and pricing structure is the same as in XProtect Transact 2.2.

- **IMPORTANT notes:** Previous XProtect Transact Software License Codes (SLCs) will NOT work in XProtect Transact 2.5.

Installation – New Installation

Start the installation program, and proceed as guided by the installation wizard.

Installation – Upgrade

The previous version must be uninstalled prior to the installation of XProtect Transact 2.5. Settings are maintained during the upgrade.

Important

XProtect Transact 2.5 uses a new database (Microsoft® SQL Server 2005 Express Edition) compared to previous versions of Transact (Microsoft SQL Server Desktop Engine). Please consult the Transact Administrator's Manual for further details.

Downloads and Documentation

The Milestone XProtect Transact 2.5 software, the Release Notes, the Getting Started Guide, the User's and Administrator's manuals are all available for download from the [XPT 2.5 Downloads](#) section of our website.

Best regards,

The Milestone Team
