

SPEAKERPHONE SERIES

Conference Calls with Style

Conference calls with style

The Sennheiser Series of compact, portable speakerphones is designed to provide flexible conferencing solutions for business professionals. Literally plug in and talk, it is ideal for both personal and small group conferences. Streamlined styling, superb finish and a lightweight design signal high-end quality on the desk - or wherever you choose to make your office.

The Sennheiser Speakerphone Series ensures an outstanding communication experience for listeners and users alike. Both callers experience a more natural interaction, making conference calls less stressful and more productive. For relaxing between calls, a dedicated music function lets you listen to music.

The Sennheiser Speakerphone Series puts an end to searching for an available conference room and lets you set up an impromptu conference with your customer, or share a call with high quality sound.

Reduce the speech/music volume during an active call or music listening

Accept and initiate a call
Redial the last number and put an active call on hold

End/reject a call

Connect to mobile phone or tablet

Connect to PC

Mute microphone

Increase the speech/music volume during an active call or music listening

Sennheiser Speakerphone Series

Depending on which communication device you use most, you can choose between the flexible SP 20 for connecting directly to your PC, mobile phone or tablet or the SP 10 if you use your PC/softphone.

SP 20

Designed for Unified Communications business professionals on the move using softphone via PC, mobile phone or tablet. Users who travel light and demand excellent conference sound will appreciate its exceptional design and user-friendly functionality. Compatible with major UC providers and softphone brands such as Avaya, Cisco and IBM.

SP 20 ML

Designed for Unified Communications business professionals on the move using Skype for Business via PC, mobile phone or tablet. Users who travel light and demand excellent conference sound will appreciate its exceptional design and user-friendly functionality.

SP 10

Designed for Unified Communications business professionals using softphone on PC, who demand exceptional design, excellent conference sound and user-friendly functionality. Compatible with major UC providers and softphone brands such as Avaya, Cisco and IBM.

SP 10 ML

Designed for Unified Communications business professionals using Skype for Business on PC, who demand exceptional design, excellent conference sound and user-friendly functionality.

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets and speakerphones depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets and speakerphones, the combination of exceptional HD sound, quality design and build – and a focus on real life usability – give the best performance possible in busy offices, contact centers and Unified Communications environments.
