Eliot is a trade mark registered from Legrand group.

bticino

MANY USEFUL FUNCTIONS AT YOUR FINGERTIPS WITH YOUR SMARTPHONE.

For your maximum freedom.

Thanks to the (free) App for Android and iOS smartphone*, you can manage various functions.
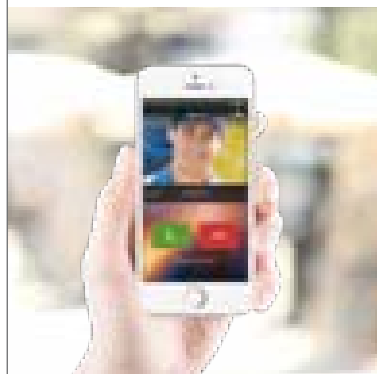

ANSWER THE CALL WHEN YOU ARE OUT

ANSWER COMFORTABLY FROM YOUR HOME SOFA

SWITCH ON THE LIGHT OR WATER THE GARDEN

CALL YOUR HOME DIRECTLY

OPEN THE HOME GATE WHEN YOU DO NOT HAVE YOUR REMOTE CONTROL

SEE WHAT IS HAPPENING OUTSIDE YOUR HOME

* For the connection you need a home Wi-fi network with Internet access

DOOR ENTRY App.

DOOR ENTRY is the App
which lets you, using your
smartphone, manage the video
internal unit calls locally
and remotely or with a simple
touch open the gate, activate
the cameras and switch
the garden timed lights on.
Configuring the App needs just
a few steps and, thanks to the
BTicino Cloud, the remote
connection is totally automated
and managed with the maximum
level of security.

Classe 300

A stylish choice.

Classe 300 V13E light finish

Classe 300 V13E dark finish

The new range of video internal units with a wide Touch Screen display.
Classe 300 has been conceived with your living style in mind
and comes in two finishes – light and dark – to interpret it at best.

**Choose it for your
villa or apartment,
whenever you want
to highlight your style**

Stylish design and modern technology – unquestionable charm.

Wide 7˝ touch screen display enhanced by the glossy finish glass effect. The curved and metalised profile with rounded corners, helps to cancel the perception of thickness giving a unique stylistic yield.

Classe 300V13M with video door entry answering machine

CLASSE 300:
# A SIMPLE APPROACH
TO EVERYDAY
GESTURES.

Quality you can see and feel: Touch Sensitive pushbuttons.

Besides the wide touch display, Classe 300 includes four "touch sensitive" capacitive pushbuttons that control the main video door entry functions.
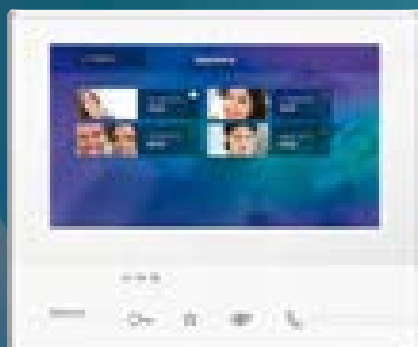

Simple, user-friendly graphic interface.

Daily routines are reinvented, gently, day after day.
Drawing inspiration from the most advanced consumer electronic devices, Classe 300 allows to easily manage calls and messages thanks to its wide touchscreen display.
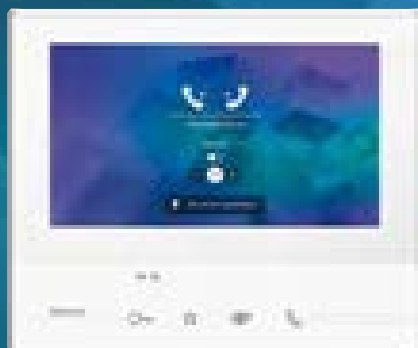

HANDSFREE COMMUNICATION

CUSTOMISABLE MENU

VIDEO DOOR ENTRY
ANSWERING MACHINE

Answering machine function, to record the voice and picture of the caller and play a pre-recorded audio message.

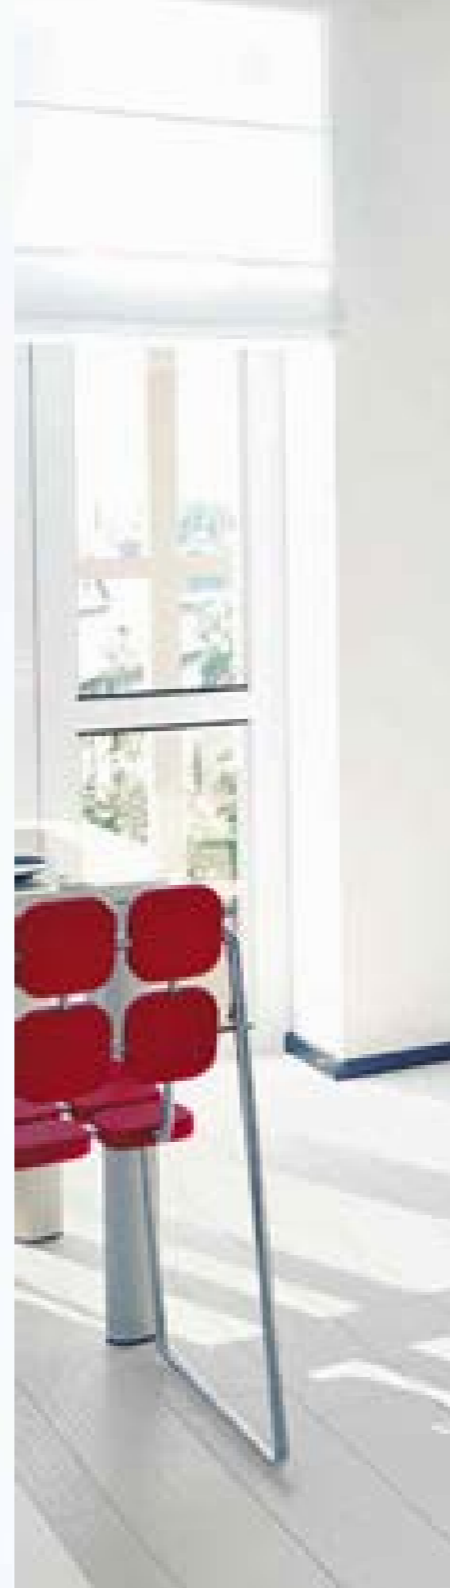

AUDIO AND TEXT NOTES

Note function for writing using the keypad, or for voice recording of messages and/or notes for the other residents.

(1) The intercom function allows for up to 3-minute communication between and among video door entry systems in the same apartment / in different apartments.
(2) Use by people wearing hearing aids fitted with (T) selector.

bticino

Ideal for refurbishments
THE ADVANTAGES OF THE 2-WIRE SOLUTION

Renovating your old door entry system is easy
and inexpensive thanks to BTicino's 2-wire system,
ensuring several benefits for the installer
in terms of both timing and feasibility.
In turn, the final customer benefits from outstanding
aesthetic features, limited costs,
and the availability of new functions.

[2 wires only:
the simple
solution for
refurbishments]

Reuse of existing cables

No need to remove the existing cables and lay the new ones.

Simple shift from the audio to the video system

Easy shift from the old analogue audio system to the new 2-WIRE colour video system.
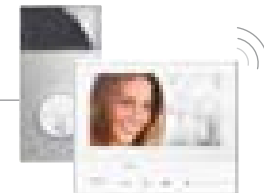

No masonry works required

Reuse of existing flush mounted boxes.

Aesthetic and functional upgrade

Modern look, high quality colour images and new functions: call redirection on smartphone, intercom, staircase lights activation, additional door locks control.
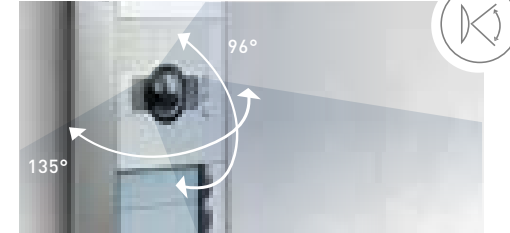

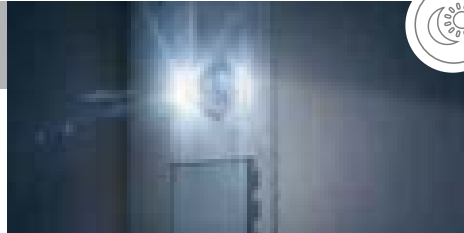

bticino

Easy to use for differently-abled people

NIGHT AND DAY AND WIDE ANGLE CAMERA

Sharp, perfect images even
in limited light conditions.

Horizontal and vertical wide viewing field.
Better security and safer use by children and
differently-abled people.

INDUCTIVE LOOP AND CONTROL SPEECH SYNTHESIS

Use by people wearing hearing
aids fitted with T selector.

Easy to use for visually impaired people
thanks to the speech synthesis of the controls.

TILTING VIDEO INTERNAL UNIT

The tilting display allows to optimise
the display viewing angle, regardless
of the installation height.

**Solutions for
differently-abled
people**
